

Missouri Department of Higher Education (MDHE) Annual Enrollment, Completion and Employment Data (2014-2017)

The Missouri Department of Higher Education (MDHE) requires private postsecondary institutions to submit an annual *Enrollment, Completion and Employment* summary. The table below contains summary data for 2015 (the first year Urshan College was required to report to MDHE) through 2017.

MDHE reporting is based on the January to December calendar year rather than the academic year, and includes actual counts rather than Integrated Postsecondary Education Data System (IPEDS) cohort counts.

Urshan College does not yet participate in IPEDS reporting, but has decided to begin following IPEDS procedures for the collection, analysis, and reporting of its persistence and completion data.

Beginning in Fall 2018, the College will publish relevant institutional statistics, including cohort-based persistence and completion rates. The data will be incorporated into a five-year institutional fact book, which will be updated annually.
